FIRST REGULAR SESSION

[PERFECTED]

HOUSE COMMITTEE SUBSTITUTE FOR

HOUSE BILL NO. 387

97TH GENERAL ASSEMBLY

1262H.03P D. ADAM CRUMBLISS, Chief Clerk

AN ACT

To repeal sections 190.100, 334.104, and 334.735, RSMo, and to enact in lieu thereof four new sections relating to physician assistants.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Sections 190.100, 334.104, and 334.735, RSMo, are repealed and four new sections enacted in lieu thereof, to be known as sections 190.098, 190.100, 334.104, and 334.735, to read as follows:

190.098. 1. In order for a person to be eligible for certification by the department as a community paramedic, an individual shall:

(1) Be currently certified as a paramedic;

(2) Successfully complete or have successfully completed a community paramedic certification program from a college, university, or educational institution that has been approved by the department or accredited by a national accreditation organization approved by the department; and

(3) Complete an application form approved by the department.

2. A community paramedic shall practice in accordance with protocols and supervisory standards established by the medical director. A community paramedic shall provide services of a health care plan if the plan has been developed by the patient's physician or by an advanced practice registered nurse or a physician assistant and there is no duplication of services to the patient from another provider.

3. Any ambulance service shall enter into a written contract to provide community paramedic services in another ambulance service area, as that term is defined in section

EXPLANATION — Matter enclosed in bold-faced brackets **[**thus**]** in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

190.100. The contract that is agreed upon may be for an indefinite period of time, as long as it includes at least a sixty-day cancellation notice by either ambulance service.

4. A community paramedic is subject to the provisions of sections 190.001 to 190.245 and rules promulgated under sections 190.001 to 190.245.

5. No person shall hold himself or herself out as a community paramedic or provide the services of a community paramedic unless such person is certified by the department.

6. The medical director shall approve the implementation of the community paramedic program.

7. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

190.100. As used in sections 190.001 to 190.245, the following words and terms mean:

(1) "Advanced life support (ALS)", an advanced level of care as provided to the adult and pediatric patient such as defined by national curricula, and any modifications to that curricula specified in rules adopted by the department pursuant to sections 190.001 to 190.245;

(2) "Ambulance", any privately or publicly owned vehicle or craft that is specially designed, constructed or modified, staffed or equipped for, and is intended or used, maintained or operated for the transportation of persons who are sick, injured, wounded or otherwise incapacitated or helpless, or who require the presence of medical equipment being used on such individuals, but the term does not include any motor vehicle specially designed, constructed or converted for the regular transportation of persons who are disabled, handicapped, normally using a wheelchair, or otherwise not acutely ill, or emergency vehicles used within airports;

(3) "Ambulance service", a person or entity that provides emergency or nonemergency ambulance transportation and services, or both, in compliance with sections 190.001 to 190.245, and the rules promulgated by the department pursuant to sections 190.001 to 190.245;

(4) "Ambulance service area", a specific geographic area in which an ambulance service has been authorized to operate;

(5) "Basic life support (BLS)", a basic level of care, as provided to the adult and pediatric patient as defined by national curricula, and any modifications to that curricula specified in rules adopted by the department pursuant to sections 190.001 to 190.245;

(6) "Council", the state advisory council on emergency medical services;

(7) "Department", the department of health and senior services, state of Missouri;

(8) "Director", the director of the department of health and senior services or the director's duly authorized representative;

(9) "Dispatch agency", any person or organization that receives requests for emergency medical services from the public, by telephone or other means, and is responsible for dispatching emergency medical services;

(10) "Emergency", the sudden and, at the time, unexpected onset of a health condition that manifests itself by symptoms of sufficient severity that would lead a prudent layperson, possessing an average knowledge of health and medicine, to believe that the absence of immediate medical care could result in:

(a) Placing the person's health, or with respect to a pregnant woman, the health of the woman or her unborn child, in significant jeopardy;

(b) Serious impairment to a bodily function;

(c) Serious dysfunction of any bodily organ or part;

(d) Inadequately controlled pain;

(11) "Emergency medical dispatcher", a person who receives emergency calls from the public and has successfully completed an emergency medical dispatcher course, meeting or exceeding the national curriculum of the United States Department of Transportation and any modifications to such curricula specified by the department through rules adopted pursuant to sections 190.001 to 190.245;

(12) "Emergency medical response agency", any person that regularly provides a level of care that includes first response, basic life support or advanced life support, exclusive of patient transportation;

(13) "Emergency medical services for children (EMS-C) system", the arrangement of personnel, facilities and equipment for effective and coordinated delivery of pediatric emergency medical services required in prevention and management of incidents which occur as a result of a medical emergency or of an injury event, natural disaster or similar situation;

(14) "Emergency medical services (EMS) system", the arrangement of personnel, facilities and equipment for the effective and coordinated delivery of emergency medical services required in prevention and management of incidents occurring as a result of an illness, injury, natural disaster or similar situation;

(15) "Emergency medical technician", a person licensed in emergency medical care in accordance with standards prescribed by sections 190.001 to 190.245, and by rules adopted by the department pursuant to sections 190.001 to 190.245;

(16) "Emergency medical technician-basic" or "EMT-B", a person who has successfully completed a course of instruction in basic life support as prescribed by the department and is

licensed by the department in accordance with standards prescribed by sections 190.001 to 190.245 and rules adopted by the department pursuant to sections 190.001 to 190.245;

(17) **"Emergency medical technician-community paramedic", "community paramedic", or "EMT-CP", a person who is certified as an emergency medical technician-paramedic and is licensed by the department in accordance with standards prescribed in section 190.098;**

(18) "Emergency medical technician-intermediate" or "EMT-I", a person who has successfully completed a course of instruction in certain aspects of advanced life support care as prescribed by the department and is licensed by the department in accordance with sections 190.001 to 190.245 and rules and regulations adopted by the department pursuant to sections 190.001 to 190.245;

[(18)**] (19)** "Emergency medical technician-paramedic" or "EMT-P", a person who has successfully completed a course of instruction in advanced life support care as prescribed by the department and is licensed by the department in accordance with sections 190.001 to 190.245 and rules adopted by the department pursuant to sections 190.001 to 190.245;

[(19)**] (20)** "Emergency services", health care items and services furnished or required to screen and stabilize an emergency which may include, but shall not be limited to, health care services that are provided in a licensed hospital's emergency facility by an appropriate provider or by an ambulance service or emergency medical response agency;

[(20)**] (21)** "First responder", a person who has successfully completed an emergency first response course meeting or exceeding the national curriculum of the United States Department of Transportation and any modifications to such curricula specified by the department through rules adopted pursuant to sections 190.001 to 190.245 and who provides emergency medical care through employment by or in association with an emergency medical response agency;

[(21)**] (22)** "Health care facility", a hospital, nursing home, physician's office or other fixed location at which medical and health care services are performed;

[(22)**] (23)** "Hospital", an establishment as defined in the hospital licensing law, subsection 2 of section 197.020, or a hospital operated by the state;

[(23)**] (24)** "Medical control", supervision provided by or under the direction of physicians to providers by written or verbal communications;

[(24)**] (25)** "Medical direction", medical guidance and supervision provided by a physician to an emergency services provider or emergency medical services system;

[(25)**] (26)** "Medical director", a physician licensed pursuant to chapter 334 designated by the ambulance service or emergency medical response agency and who meets criteria specified by the department by rules pursuant to sections 190.001 to 190.245;

[(26)**]** **(27)** "Memorandum of understanding", an agreement between an emergency medical response agency or dispatch agency and an ambulance service or services within whose territory the agency operates, in order to coordinate emergency medical services;

[(27)**]** **(28)** "Patient", an individual who is sick, injured, wounded, diseased, or otherwise incapacitated or helpless, or dead, excluding deceased individuals being transported from or between private or public institutions, homes or cemeteries, and individuals declared dead prior to the time an ambulance is called for assistance;

[(28)**]** **(29)** "Person", as used in these definitions and elsewhere in sections 190.001 to 190.245, any individual, firm, partnership, copartnership, joint venture, association, cooperative organization, corporation, municipal or private, and whether organized for profit or not, state, county, political subdivision, state department, commission, board, bureau or fraternal organization, estate, public trust, business or common law trust, receiver, assignee for the benefit of creditors, trustee or trustee in bankruptcy, or any other service user or provider;

[(29)**]** **(30)** "Physician", a person licensed as a physician pursuant to chapter 334;

[(30)**]** **(31)** "Political subdivision", any municipality, city, county, city not within a county, ambulance district or fire protection district located in this state which provides or has authority to provide ambulance service;

[(31)**]** **(32)** "Professional organization", any organized group or association with an ongoing interest regarding emergency medical services. Such groups and associations could include those representing volunteers, labor, management, firefighters, EMT-B's, nurses, EMT-P's, physicians, communications specialists and instructors. Organizations could also represent the interests of ground ambulance services, air ambulance services, fire service organizations, law enforcement, hospitals, trauma centers, communication centers, pediatric services, labor unions and poison control services;

[(32)**]** **(33)** "Proof of financial responsibility", proof of ability to respond to damages for liability, on account of accidents occurring subsequent to the effective date of such proof, arising out of the ownership, maintenance or use of a motor vehicle in the financial amount set in rules promulgated by the department, but in no event less than the statutory minimum required for motor vehicles. Proof of financial responsibility shall be used as proof of self-insurance;

[(33)**]** **(34)** "Protocol", a predetermined, written medical care guideline, which may include standing orders;

[(34)**]** **(35)** "Regional EMS advisory committee", a committee formed within an emergency medical services (EMS) region to advise ambulance services, the state advisory council on EMS and the department;

[(35)**]** **(36)** "Specialty care transportation", the transportation of a patient requiring the services of an emergency medical technician-paramedic who has received additional training beyond the training prescribed by the department.

Specialty care transportation services shall be defined in writing in the appropriate local protocols for ground and air ambulance services and approved by the local physician medical director. The protocols shall be maintained by the local ambulance service and shall define the additional training required of the emergency medical technician-paramedic;

[(36)**]** **(37)** "Stabilize", with respect to an emergency, the provision of such medical treatment as may be necessary to attempt to assure within reasonable medical probability that no material deterioration of an individual's medical condition is likely to result from or occur during ambulance transportation unless the likely benefits of such transportation outweigh the risks;

[(37)**]** **(38)** "State advisory council on emergency medical services", a committee formed to advise the department on policy affecting emergency medical service throughout the state;

[(38)**]** **(39)** "State EMS medical directors advisory committee", a subcommittee of the state advisory council on emergency medical services formed to advise the state advisory council on emergency medical services and the department on medical issues;

[(39)**]** **(40)** "STEMI" or "ST-elevation myocardial infarction", a type of heart attack in which impaired blood flow to the patient's heart muscle is evidenced by ST-segment elevation in electrocardiogram analysis, and as further defined in rules promulgated by the department under sections 190.001 to 190.250;

[(40)**]** **(41)** "STEMI care", includes education and prevention, emergency transport, triage, and acute care and rehabilitative services for STEMI that requires immediate medical or surgical intervention or treatment;

[(41)**]** **(42)** "STEMI center", a hospital that is currently designated as such by the department to care for patients with ST-segment elevation myocardial infarctions;

[(42)**]** **(43)** "Stroke", a condition of impaired blood flow to a patient's brain as defined by the department;

[(43)**]** **(44)** "Stroke care", includes emergency transport, triage, and acute intervention and other acute care services for stroke that potentially require immediate medical or surgical intervention or treatment, and may include education, primary prevention, acute intervention, acute and subacute management, prevention of complications, secondary stroke prevention, and rehabilitative services;

[(44)**]** **(45)** "Stroke center", a hospital that is currently designated as such by the department;

[(45)**]** **(46)** "Trauma", an injury to human tissues and organs resulting from the transfer of energy from the environment;

[(46)**]** **(47)** "Trauma care" includes injury prevention, triage, acute care and rehabilitative services for major single system or multisystem injuries that potentially require immediate medical or surgical intervention or treatment;

[(47)**]** **(48)** "Trauma center", a hospital that is currently designated as such by the department.

334.104. 1. A physician may enter into collaborative practice arrangements with registered professional nurses. Collaborative practice arrangements shall be in the form of written agreements, jointly agreed-upon protocols, or standing orders for the delivery of health care services. Collaborative practice arrangements, which shall be in writing, may delegate to a registered professional nurse the authority to administer or dispense drugs and provide treatment as long as the delivery of such health care services is within the scope of practice of the registered professional nurse and is consistent with that nurse's skill, training and competence.

2. Collaborative practice arrangements, which shall be in writing, may delegate to a registered professional nurse the authority to administer, dispense or prescribe drugs and provide treatment if the registered professional nurse is an advanced practice nurse as defined in subdivision (2) of section 335.016. Collaborative practice arrangements may delegate to an advanced practice registered nurse, as defined in section 335.016, the authority to administer, dispense, or prescribe controlled substances listed in Schedules III, IV, and V of section 195.017; except that, the collaborative practice arrangement shall not delegate the authority to administer any controlled substances listed in schedules III, IV, and V of section 195.017 for the purpose of inducing sedation or general anesthesia for therapeutic, diagnostic, or surgical procedures. Schedule III narcotic controlled substance prescriptions shall be limited to a one hundred twenty-hour supply without refill. Such collaborative practice arrangements shall be in the form of written agreements, jointly agreed-upon protocols or standing orders for the delivery of health care services.

3. The written collaborative practice arrangement shall contain at least the following provisions:

(1) Complete names, home and business addresses, zip codes, and telephone numbers of the collaborating physician and the advanced practice registered nurse;

(2) A list of all other offices or locations besides those listed in subdivision (1) of this subsection where the collaborating physician authorized the advanced practice registered nurse to prescribe;

(3) A requirement that there shall be posted at every office where the advanced practice registered nurse is authorized to prescribe, in collaboration with a physician, a prominently

displayed disclosure statement informing patients that they may be seen by an advanced practice registered nurse and have the right to see the collaborating physician;

(4) All specialty or board certifications of the collaborating physician and all certifications of the advanced practice registered nurse;

(5) The manner of collaboration between the collaborating physician and the advanced practice registered nurse, including how the collaborating physician and the advanced practice registered nurse will:

(a) Engage in collaborative practice consistent with each professional's skill, training, education, and competence;

(b) Maintain geographic proximity**, except the collaborative practice arrangement may allow for geographic proximity to be waived for a maximum of twenty-eight days per calendar year for rural health clinics as defined by P.L. 95-210, as long as the collaborative practice arrangement includes alternative plans as required in paragraph (c) of this subdivision. This exception to geographic proximity shall apply only to independent rural health clinics and provider-based rural health clinics where the main location of the hospital sponsor is more than fifty miles from the clinic. The collaborating physician is required to maintain documentation related to this requirement and to present it to the state board of registration for the healing arts if requested**; and

(c) Provide coverage during absence, incapacity, infirmity, or emergency by the collaborating physician;

(6) A description of the advanced practice registered nurse's controlled substance prescriptive authority in collaboration with the physician, including a list of the controlled substances the physician authorizes the nurse to prescribe and documentation that it is consistent with each professional's education, knowledge, skill, and competence;

(7) A list of all other written practice agreements of the collaborating physician and the advanced practice registered nurse;

(8) The duration of the written practice agreement between the collaborating physician and the advanced practice registered nurse;

(9) A description of the time and manner of the collaborating physician's review of the advanced practice registered nurse's delivery of health care services. The description shall include provisions that the advanced practice registered nurse shall submit a minimum of ten percent of the charts documenting the advanced practice registered nurse's delivery of health care services to the collaborating physician for review by the collaborating physician, or any other physician designated in the collaborative practice arrangement, every fourteen days; and

(10) The collaborating physician, or any other physician designated in the collaborative practice arrangement, shall review every fourteen days a minimum of twenty percent of the

charts in which the advanced practice registered nurse prescribes controlled substances. The charts reviewed under this subdivision may be counted in the number of charts required to be reviewed under subdivision (9) of this subsection.

4. The state board of registration for the healing arts pursuant to section 334.125 and the board of nursing pursuant to section 335.036 may jointly promulgate rules regulating the use of collaborative practice arrangements. Such rules shall be limited to specifying geographic areas to be covered, the methods of treatment that may be covered by collaborative practice arrangements and the requirements for review of services provided pursuant to collaborative practice arrangements including delegating authority to prescribe controlled substances. Any rules relating to dispensing or distribution of medications or devices by prescription or prescription drug orders under this section shall be subject to the approval of the state board of pharmacy. Any rules relating to dispensing or distribution of controlled substances by prescription or prescription drug orders under this section shall be subject to the approval of the department of health and senior services and the state board of pharmacy. In order to take effect, such rules shall be approved by a majority vote of a quorum of each board. Neither the state board of registration for the healing arts nor the board of nursing may separately promulgate rules relating to collaborative practice arrangements. Such jointly promulgated rules shall be consistent with guidelines for federally funded clinics. The rulemaking authority granted in this subsection shall not extend to collaborative practice arrangements of hospital employees providing inpatient care within hospitals as defined pursuant to chapter 197 or population-based public health services as defined by 20 CSR 2150-5.100 as of April 30, 2008.

5. The state board of registration for the healing arts shall not deny, revoke, suspend or otherwise take disciplinary action against a physician for health care services delegated to a registered professional nurse provided the provisions of this section and the rules promulgated thereunder are satisfied. Upon the written request of a physician subject to a disciplinary action imposed as a result of an agreement between a physician and a registered professional nurse or registered physician assistant, whether written or not, prior to August 28, 1993, all records of such disciplinary licensure action and all records pertaining to the filing, investigation or review of an alleged violation of this chapter incurred as a result of such an agreement shall be removed from the records of the state board of registration for the healing arts and the division of professional registration and shall not be disclosed to any public or private entity seeking such information from the board or the division. The state board of registration for the healing arts shall take action to correct reports of alleged violations and disciplinary actions as described in this section which have been submitted to the National Practitioner Data Bank. In subsequent applications or representations relating to his medical practice, a physician completing forms or

documents shall not be required to report any actions of the state board of registration for the healing arts for which the records are subject to removal under this section.

6. Within thirty days of any change and on each renewal, the state board of registration for the healing arts shall require every physician to identify whether the physician is engaged in any collaborative practice agreement, including collaborative practice agreements delegating the authority to prescribe controlled substances, or physician assistant agreement and also report to the board the name of each licensed professional with whom the physician has entered into such agreement. The board may make this information available to the public. The board shall track the reported information and may routinely conduct random reviews of such agreements to ensure that agreements are carried out for compliance under this chapter.

7. Notwithstanding any law to the contrary, a certified registered nurse anesthetist as defined in subdivision (8) of section 335.016 shall be permitted to provide anesthesia services without a collaborative practice arrangement provided that he or she is under the supervision of an anesthesiologist or other physician, dentist, or podiatrist who is immediately available if needed. Nothing in this subsection shall be construed to prohibit or prevent a certified registered nurse anesthetist as defined in subdivision (8) of section 335.016 from entering into a collaborative practice arrangement under this section, except that the collaborative practice arrangement may not delegate the authority to prescribe any controlled substances listed in Schedules III, IV, and V of section 195.017.

8. A collaborating physician shall not enter into a collaborative practice arrangement with more than three full-time equivalent advanced practice registered nurses. This limitation shall not apply to collaborative arrangements of hospital employees providing inpatient care service in hospitals as defined in chapter 197 or population-based public health services as defined by 20 CSR 2150-5.100 as of April 30, 2008.

9. It is the responsibility of the collaborating physician to determine and document the completion of at least a one-month period of time during which the advanced practice registered nurse shall practice with the collaborating physician continuously present before practicing in a setting where the collaborating physician is not continuously present. This limitation shall not apply to collaborative arrangements of providers of population-based public health services as defined by 20 CSR 2150-5.100 as of April 30, 2008.

10. No agreement made under this section shall supersede current hospital licensing regulations governing hospital medication orders under protocols or standing orders for the purpose of delivering inpatient or emergency care within a hospital as defined in section 197.020 if such protocols or standing orders have been approved by the hospital's medical staff and pharmaceutical therapeutics committee.

11. No contract or other agreement shall require a physician to act as a collaborating physician for an advanced practice registered nurse against the physician's will. A physician shall have the right to refuse to act as a collaborating physician, without penalty, for a particular advanced practice registered nurse. No contract or other agreement shall limit the collaborating physician's ultimate authority over any protocols or standing orders or in the delegation of the physician's authority to any advanced practice registered nurse, but this requirement shall not authorize a physician in implementing such protocols, standing orders, or delegation to violate applicable standards for safe medical practice established by hospital's medical staff.

12. No contract or other agreement shall require any advanced practice registered nurse to serve as a collaborating advanced practice registered nurse for any collaborating physician against the advanced practice registered nurse's will. An advanced practice registered nurse shall have the right to refuse to collaborate, without penalty, with a particular physician.

334.735. 1. As used in sections 334.735 to 334.749, the following terms mean:

(1) "Applicant", any individual who seeks to become licensed as a physician assistant;

(2) "Certification" or "registration", a process by a certifying entity that grants recognition to applicants meeting predetermined qualifications specified by such certifying entity;

(3) "Certifying entity", the nongovernmental agency or association which certifies or registers individuals who have completed academic and training requirements;

(4) "Department", the department of insurance, financial institutions and professional registration or a designated agency thereof;

(5) "License", a document issued to an applicant by the board acknowledging that the applicant is entitled to practice as a physician assistant;

(6) "Physician assistant", a person who has graduated from a physician assistant program accredited by the American Medical Association's Committee on Allied Health Education and Accreditation or by its successor agency, who has passed the certifying examination administered by the National Commission on Certification of Physician Assistants and has active certification by the National Commission on Certification of Physician Assistants who provides health care services delegated by a licensed physician. A person who has been employed as a physician assistant for three years prior to August 28, 1989, who has passed the National Commission on Certification of Physician Assistants examination, and has active certification of the National Commission on Certification of Physician Assistants;

(7) "Recognition", the formal process of becoming a certifying entity as required by the provisions of sections 334.735 to 334.749;

(8) "Supervision", control exercised over a physician assistant working **[**within the same facility as the**] with a** supervising physician **[**sixty-six percent of the time a physician assistant

provides patient care, except a physician assistant may make follow-up patient examinations in hospitals, nursing homes, patient homes, and correctional facilities, each such examination being reviewed, approved and signed by the supervising physician, except as provided by subsection 2 of this section. For the purposes of this section, the percentage of time a physician assistant provides patient care with the supervising physician on-site shall be measured each calendar quarter**] and oversight of the activities of and accepting responsibility for the physician assistant's delivery of care. The physician assistant shall only practice at a location where the physician routinely provides patient care, except existing patients of the supervising physician in the patient's home and correctional facilities**. The supervising physician must be **[**readily**]** **immediately** available in person or via telecommunication during the time the physician assistant is providing patient care. **Prior to commencing practice, the supervising physician and physician assistant shall attest on a form provided by the board that the physician shall provide supervision appropriate to the physician assistant's training and that the physician assistant shall not practice beyond the physician assistant's training and experience. Appropriate supervision shall require the supervising physician to be working within the same facility as the physician assistant for at least four hours within one calendar day for every fourteen days on which the physician assistant provides patient care as described in subsection 3 of this section. Only days in which the physician assistant provides patient care as described in subsection 3 of this section shall be counted toward the fourteen-day period. The requirement of appropriate supervision shall be applied so that no more than thirteen calendar days in which a physician assistant provides patient care shall pass between the physician's four hours working within the same facility.** The board shall promulgate rules pursuant to chapter 536 for documentation of joint review of the physician assistant activity by the supervising physician and the physician assistant. **[**The physician assistant shall be limited to practice at locations where the supervising physician is no further than thirty miles by road using the most direct route available, or in any other fashion so distanced as to create an impediment to effective intervention and supervision of patient care or adequate review of services. Any other provisions of this chapter notwithstanding, for up to ninety days following the effective date of rules promulgated by the board to establish the waiver process under subsection 2 of this section, any physician assistant practicing in a health professional shortage area as of April 1, 2007, shall be allowed to practice under the on-site requirements stipulated by the supervising physician on the supervising physician form that was in effect on April 1, 2007.**]**

2. **[**The board shall promulgate rules under chapter 536 to direct the advisory commission on physician assistants to establish a formal waiver mechanism by which an individual physician-physician assistant team may apply for alternate minimum amounts of

on-site supervision and maximum distance from the supervising physician. After review of an application for a waiver, the advisory commission on physician assistants shall present its recommendation to the board for its advice and consent on the approval or denial of the application. The rule shall establish a process by which the public is invited to comment on the application for a waiver, and shall specify that a waiver may only be granted if a supervising physician and physician assistant demonstrate to the board's satisfaction in accordance with its uniformly applied criteria that:

(1) Adequate supervision will be provided by the physician for the physician assistant, given the physician assistant's training and experience and the acuity of patient conditions normally treated in the clinical setting;

(2)**] (1) A supervision agreement shall limit** the physician assistant **[**shall be limited**]** to practice **only** at locations **described in subdivision (8) of subsection 1 of this section,** where the supervising physician is no further than fifty miles by road using the most direct route available**[**, or in any other fashion so distanced**] and where the location is not so situated** as to create an impediment to effective intervention and supervision of patient care or adequate review of services**[**;

(3) The community or communities served by the supervising physician and physician assistant would experience reduced access to health care services in the absence of a waiver;

(4) The applicant will practice in an area designated at the time of application as a health professional shortage area;

(5) Nothing in this section shall be construed to require a physician-physician assistant team to increase their on-site requirement allowed in their initial waiver in order to qualify for renewal of such waiver;

(6) If a waiver has been granted by the board of healing arts on or after August 28, 2009, to**] .**

(2) For a physician-physician assistant team working in a rural health clinic under the federal Rural Health Clinic Services Act, P.L. 95-210, as amended, no **[**additional waiver shall be required for the physician-physician assistant team, so long as the rural health clinic maintains its status as a rural health clinic under such federal act, and such physician-physician assistant team comply with federal supervision requirements. No**]** supervision requirements in addition to the minimum federal law shall be required **[**for the physician-physician assistant team in a rural health clinic if a waiver has been granted by the board. However, the board shall be able to void a current waiver after conducting a hearing and upon a finding of fact that the physician-physician assistant team has failed to comply with such federal act or either member of the team has violated a provision of this chapter;

(7) A physician assistant shall only be required to seek a renewal of a waiver every five years or when his or her supervising physician is a different physician than the physician shown on the waiver application or they move their primary practice location more than ten miles from the location shown on the waiver application**]**.

3. The scope of practice of a physician assistant shall consist only of the following services and procedures:

(1) Taking patient histories;

(2) Performing physical examinations of a patient;

(3) Performing or assisting in the performance of routine office laboratory and patient screening procedures;

(4) Performing routine therapeutic procedures;

(5) Recording diagnostic impressions and evaluating situations calling for attention of a physician to institute treatment procedures;

(6) Instructing and counseling patients regarding mental and physical health using procedures reviewed and approved by a licensed physician;

(7) Assisting the supervising physician in institutional settings, including reviewing of treatment plans, ordering of tests and diagnostic laboratory and radiological services, and ordering of therapies, using procedures reviewed and approved by a licensed physician;

(8) Assisting in surgery;

(9) Performing such other tasks not prohibited by law under the supervision of a licensed physician as the physician's assistant has been trained and is proficient to perform; **and**

(10) Physician assistants shall not perform **or prescribe** abortions.

4. Physician assistants shall not prescribe nor dispense any drug, medicine, device or therapy unless pursuant to a physician supervision agreement in accordance with the law, nor prescribe lenses, prisms or contact lenses for the aid, relief or correction of vision or the measurement of visual power or visual efficiency of the human eye, nor administer or monitor general or regional block anesthesia during diagnostic tests, surgery or obstetric procedures. Prescribing and dispensing of drugs, medications, devices or therapies by a physician assistant shall be pursuant to a physician assistant supervision agreement which is specific to the clinical conditions treated by the supervising physician and the physician assistant shall be subject to the following:

(1) A physician assistant shall only prescribe controlled substances in accordance with section 334.747;

(2) The types of drugs, medications, devices or therapies prescribed or dispensed by a physician assistant shall be consistent with the scopes of practice of the physician assistant and the supervising physician;

(3) All prescriptions shall conform with state and federal laws and regulations and shall include the name, address and telephone number of the physician assistant and the supervising physician;

(4) A physician assistant**,** or advanced practice **registered** nurse as defined in section 335.016 may request, receive and sign for noncontrolled professional samples and may distribute professional samples to patients;

(5) A physician assistant shall not prescribe any drugs, medicines, devices or therapies the supervising physician is not qualified or authorized to prescribe; and

(6) A physician assistant may only dispense starter doses of medication to cover a period of time for seventy-two hours or less.

5. A physician assistant shall clearly identify himself or herself as a physician assistant and shall not use or permit to be used in the physician assistant's behalf the terms "doctor", "Dr." or "doc" nor hold himself or herself out in any way to be a physician or surgeon. No physician assistant shall practice or attempt to practice without physician supervision or in any location where the supervising physician is not immediately available for consultation, assistance and intervention, except as otherwise provided in this section, and in an emergency situation, nor shall any physician assistant bill a patient independently or directly for any services or procedure by the physician assistant.

6. For purposes of this section, the licensing of physician assistants shall take place within processes established by the state board of registration for the healing arts through rule and regulation. The board of healing arts is authorized to establish rules pursuant to chapter 536 establishing licensing and renewal procedures, supervision, supervision agreements, fees, and addressing such other matters as are necessary to protect the public and discipline the profession. An application for licensing may be denied or the license of a physician assistant may be suspended or revoked by the board in the same manner and for violation of the standards as set forth by section 334.100, or such other standards of conduct set by the board by rule or regulation. Persons licensed pursuant to the provisions of chapter 335 shall not be required to be licensed as physician assistants. All applicants for physician assistant licensure who complete a physician assistant training program after January 1, 2008, shall have a master's degree from a physician assistant program.

7. "Physician assistant supervision agreement" means a written agreement, jointly agreed-upon protocols or standing order between a supervising physician and a physician assistant, which provides for the delegation of health care services from a supervising physician to a physician assistant and the review of such services. **The agreement shall contain at least the following provisions:**

(1) Complete names, home and business addresses, zip codes, telephone numbers, and state license numbers of the supervising physician and the physician assistant;

(2) A list of all offices or locations where the physician routinely provides patient care, and in which of such offices or locations the supervising physician has authorized the physician assistant to practice;

(3) All specialty or board certifications of the supervising physician;

(4) The manner of supervision between the supervising physician and the physician assistant, including how the supervising physician and the physician assistant shall:

(a) Attest on a form provided by the board that the physician shall provide supervision appropriate to the physician assistant's training and experience and that the physician assistant shall not practice beyond the scope of the physician assistant's training and experience nor the supervising physician's capabilities and training; and

(b) Provide coverage during absence, incapacity, infirmity, or emergency by the supervising physician;

(5) The duration of the supervision agreement between the supervising physician and physician assistant; and

(6) A description of the time and manner of the supervising physician's review of the physician assistant's delivery of health care services. Such description shall include provisions that the supervising physician, or a designated supervising physician listed in the supervision agreement review a minimum of ten percent of the charts of the physician assistant's delivery of health care services every fourteen days.

8. When a physician assistant supervision agreement is utilized to provide health care services for conditions other than acute self-limited or well-defined problems, the supervising physician or other physician designated in the supervision agreement shall see the patient for evaluation and approve or formulate the plan of treatment for new or significantly changed conditions as soon as practical, but in no case more than two weeks after the patient has been seen by the physician assistant.

9. At all times the physician is responsible for the oversight of the activities of, and accepts responsibility for, health care services rendered by the physician assistant.

10. It is the responsibility of the supervising physician to determine and document the completion of at least a one-month period of time during which the licensed physician assistant shall practice with a supervising physician continuously present before practicing in a setting where a supervising physician is not continuously present.

11. No contract or other agreement shall require a physician to act as a supervising physician for a physician assistant against the physician's will. A physician shall have the right to refuse to act as a supervising physician, without penalty, for a particular physician assistant.

No contract or other agreement shall limit the supervising physician's ultimate authority over any protocols or standing orders or in the delegation of the physician's authority to any physician assistant, but this requirement shall not authorize a physician in implementing such protocols, standing orders, or delegation to violate applicable standards for safe medical practice established by **the** hospital's medical staff.

12. Physician assistants shall file with the board a copy of their supervising physician form.

13. No physician shall be designated to serve as supervising physician for more than three full-time equivalent licensed physician assistants. This limitation shall not apply to physician assistant agreements of hospital employees providing inpatient care service in hospitals as defined in chapter 197.
